COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Dear Sir:

Responsive to the Notice of Allowability mailed January 19, 2006 in the above-identified application, Applicant disagrees with Examiner that the amendment was necessary for patentability. Applicant believes that the claims already claimed elements which distinguished over the prior art. Rather than prolong prosecution unnecessarily, Applicant reserves the right to file a continuation application containing claims with only the necessary limitations.

Respectfully submitted,

Dated: February 1, 2006
